Journalism as Practice - Sandra L. Beres 2013-10-28 Technological innovation and confluence in contemporary communication are shaping the field of journalism into just one aspect. The emphasis on the bottom line has resulted in newsroom budget cuts and other business strategies that seriously endangered journalism. As a result, journalists are driven to cut corners and compromise, and in turn, question their role. In Journalism as Practice, Sandra L. Beres shows that applying philosopher Alasdair Macintyre’s ideas of a ‘practice’ to journalism can help us understand what it is at stake in the current crisis, and help the field develop and promote the kind of robust group identity implied by the idea of a practice. Journalists should be prepared to defend the entire media field against commodification. Furthermore, this book examines key U.S. journalism ethics cases since 2000. Some of these cases, such as Dan Rather’s “Memogate” scandal, are explored in detail, and the book offers insight into discussions that remain relevant cases at length. This book is essential reading for students and practicing journalists interested in preserving the ethical role of journalism in promoting the public good.

The Routledge Companion to Media and Poverty-Taylor & Francis Group 2021-06-20 Comprehensive and interdisciplinary, this collection explores the complex, and often problematic, ways in which the news media shapes perceptions of poverty. Editor Sandra L. Beres and a diverse collection of scholars and journalists question the idea that the media produces the facts about the poor. The book is divided into five sections that examine philosophical principles for reporting on poverty, the history and nature of poverty coverage, conceptual representations of people experiencing poverty, poverty coverage as part of reporting on public policy, and political perspectives on the media’s role in covering poverty. Within these chapters as well as a broad selection of essays illuminating key issues and a Q&A with a relevant journalist. Topics covered include news coverage of corporate philanthropy, structure in reporting, representations of the poor, the moral demands of vulnerability and agency, community empowerment, and citizen media. The book’s broad focus considers media and poverty at both the local and global levels with contributors from sixteen countries. As an ideal resource for students and scholars of media and communication and journalism who are studying topics involving the media and social justice, as well as journalists, activists, and policy makers working in these areas.

Emotions and Virtues in Feature Writing: Jennifer Martin 2021 This book provides an important and original way of understanding how journalists use emotion to communicate to readers, posing the deceptively simple question, how do journalists make us feel when we read their work? Martin uses case studies of award-winning magazine-style features to illustrate how some of the best writers of literary journalism give readers the gift of experiencing a range of perspectives and emotions in the telling of a simple story. Part One of this book discusses the origins and development of narrative journalism and introduces and new theoretical framework for analyzing narrative journalism. Part Two includes case studies of prize-winning journalism, demonstrating how the Virtue Paradigm and the Virtue Map provide fresh insight into narrative journalism and the ongoing conversation of what it means to lose well in touch with the world.

Journalism Education, Training and Employment - Bob Franklin 2010-12-14 During this period of rapid and complex change in journalism, both media consumers and media professionals are increasingly seeking better ways to understand how journalists should think about the ethical decisions that journalists routinely face. Excellence in Online Journalism - David A. Craig 2010-09-24

Like the technologies that support it, the craft of online journalism is evolving quickly. This timely book helps students develop standards of excellence, through interviews with more than 30 writers, editors and producers, and dozens of examples of strong work. The author provides a framework of concepts to show how the field is evolving and challenged by competition, staffing limitations, and other pressures. Discussion is organized around four key elements: speed and accuracy with depth in breaking news; comprehensiveness in multimedia content; open-endedness in story development, including public contributions; and conversation with users. Chapter-length treatments of these topics bring home the realities of online work to students, who also come to appreciate how excellence and ethics online go hand in hand.

New Media, Old News - Natalie Fenton 2009-09-26

Have new communications technologies revitalized the public sphere, or become the commercial tool for an increasingly un-public, undemocratic news media? Are changing journalistic practices damaging the nature of news, or are new media allowing journalists to do more journalism and to engage the public more effectively? With massive changes in the media environment and its technologies, interrogating the nature of news journalism is one of the most urgent tasks we face in defining the public interest today. The implications are serious, not just for the future of the news, but also for the practice of democracy. In a thorough empirical investigation of journalistic practices in different news contexts, New Media, Old News explores how technological, economic and social changes have reconfigured news journalism, and the consequences of these transformations for a vibrant democracy in our digital age. The result is a piercing examination of why understanding news journalism matters now more than ever. It is essential reading for students and scholars of journalism and new media.

Revolutionary Aristotelianism - Kelvin Knight 2016-11-21

This book includes revisions of papers originally presented at the inaugural conference of the International Society for MacIntyrean Philosophy, on the theme of Alasdair MacIntyre’s Revolutionary Aristotelianism: Ethics, Resistance and Utopia, hosted by the Human Rights and Social Justice Research Institute at London Metropolitan University. The papers selected are by fifteen leading international philosophers and political theorists. Writing from a variety of perspectives, they address MacIntyre’s accounts of Aristotelianism, Thomism and Marxism, his virtue ethics and metaethics, the development of his philosophical project, and his critiques of managerialism, capitalism and liberalism. The book concludes with an extensive response by MacIntyre, in which he clarifies his past arguments, his present position, and his relation to rival theories of moral, political and social practice.
